The Welsh Alpine Plant Specialists

Dryas octopetala

List of Alpine Plants

Spring 2024

ABERCONWY NURSERY
PRICE LIST: SPRING 2024

Iris lutescens

We are pleased to provide you with a copy of our new spring price list. **This list cancels all previous lists.** We hope that you will find something of interest. We grow alpine & rock garden plants (including some dwarf shrubs, acid loving plants, and ferns) as well as various other interesting plants from time to time. We grow only plants that we like and find interesting, and tend not to be constrained by categories!

All of our plants are grown on the nursery site, sometimes in small numbers per variety. As a result the stock situation can change suddenly. Some listed items can sell out quickly and unlisted varieties often become available throughout the year. Most of our plants are offered in 6cm, 7cm or 9cm pots as appropriate for the needs of the plant. **All plants are offered ex nursery subject to their remaining available.**

Plants can be ordered in advance for collection at the nursery or at any shows we are attending. A few days notice of collection would be helpful, so that we can collect the plants together, especially if the order is large. There is no need to send payment with the order. Payment can be made on collection, at the nursery or at the shows.

We do not supply plants by mail order.

Please ask if you cannot find what you are looking for when you visit. We have extensive growing areas beyond the sales area, and not all of our stock is out on display to customers at any one time. **If you are looking for a number of specific plants in the list, it can save a lot of time if you send your list to us a few days before your visit, so that we can assemble the available plants from the far reaches of the nursery site for you. If you are travelling from a distance to collect specific plants, please ring to check current availability, as some items can sell out very quickly, especially at the start of the season.** We have a large, covered 'Alpine Tunnel' with net sides, in which we can grow and display a large number of alpine plants. This serves to protect the plants (and our customers) from the extremes of wind & rain to which our site is prone, without making the plants 'soft'.

A list of the shows we intend to attend in 2024 is available at the end of this list, or on our website. You can check for more complete information for the AGS shows at www.alpinegardensociety.net/shows-events or www.srgc.net/add-show-dates.asp for the SRGC shows.

OPENING TIMES 2024:
12th March 2024 to 26th September 2024
Tuesday – Saturday: 10am-4pm

ABERCONWY NURSERY PLANT LIST: SPRING 2024

All plants are offered ex nursery subject to their remaining available.

Some items can sell out very quickly.

ACIS autumnalis	£4.00	ASTILBE glaberrima 'Saxatilis'	£5.00	COPTIS quinquefolia	£6.00	DRABA bryoides imbricata	£4.00

Notes from the Potting Shed

Welcome to our Spring 2024 availability list, full of interesting and beautiful small plants all propagated and grown here on the nursery. We look forward to seeing you at the AGS and SRGC shows through the season, or better still, welcoming you here on the nursery.

Gemma has been refreshing the **Dionysia** collection and has had an outstandingly good year for propagation. As a result, we have more species and cultivars available than space in the main list. There is a more complete supplementary list of **Dionysia** appended to the main list on the website and is available on request. All are available for early spring but in small numbers, so order early, especially those that we rarely have available.

We have also split our venerable stock of the exquisite **Asphodelus acaulis** and have a few large plants to spare in litre deep pots this spring. This rosette forming liliaceous plant from the mountains of Algeria and Morocco is best grown in sharply drained soil in the alpine house and is a joy when it flowers in mid winter, with a dense cluster of almost stalkless soft pink flowers in the centre of the rosette, amongst linear, spidery foliage.

Other highlights are a small number of young plants of the rare and choice **Cassiope wardii**. This is the lovely soft hairy form (not the greener 'Buchanan's Form') – difficult to grow but worth the effort. Also for cool, acid situations are some substantial plants of **Cassiope selaginoides L&S13284**. This neat upright grower to about 30cm has stood the test of time, collected approaching a century ago by Ludlow & Sherriff. Its outwardly flared dainty white flowers appear reliably for us each year. All cassiopes are best grown outside, the alpine house is usually too hot and dry for them.

We don't often have plants of **Philesia magellanica** to offer, also for a cooler site. It is slow to establish and difficult to propagate, but makes a good low growing evergreen for a cool, acid or neutral bed or trough, and is best planted high up to best enjoy the very large, pendulous deep pink flowers which appear sporadically through the year.

For a sunny alpine bed or trough nothing brightens up the summer more for me than **Campanula tommasiniana**. We have a large plant of this clump-forming bellflower in one of our crevice beds, only 10-15cm high (it doesn't run at all). It flowers over a long period in summer and never fails to delight. It has elegant, pendulous, tubular flowers of the softest blue (the closely related *Campanula waldsteiniana* has open starry flowers of a darker blue)

We are offering a few of Brian Burrow's outstanding *Draba* hybrid, **Draba longisiliqua x parnassica**. The robust rosette is bright green and it forms a dense, very tight cushion with freely produced bright yellow flowers on very short stems over a long period in early spring. This is going to make an outstanding plant for showing.

We are also including some plants of **Roscoea humeana forma alba** that came to us from Ron Beeston from plants of the Ron McBeath SBLE636 collection. Seedlings from this dwarf collection are variable, ranging from soft pink to white (see photos in Jill Cowley's *Roscoea* monograph). We have been separating out the pink and white flowered plants (keeping some for further assessment!) and we are able to offer a selection of these in this year's offer. As compared to other forms of *R. humeana*, they are all dwarf, around 15cm, and they are all beautiful.

Unfortunately we didn't have the opportunity to lift *Erythroniums* last summer. The exceptional rainfall meant that the stock bed plants came into growth unusually early and we missed the window for lifting them. The weather has continued to attempt to wash or blow us away all winter, to the extent that the bottom of the garden has been under water again! Anyone for boat trips?

Please order early if you would like us to bring orders to any of these shows.

HOW TO FIND US

Visitors are welcome on the nursery during opening hours. The nursery is situated on a minor road just off the A470 between Llandudno Junction and Llanrwst, about 1.5 miles north of Bodnant Gardens. *The nursery cannot be seen from the main A470.* The site commands majestic views towards Snowdonia and the Carneddau.

Our postcode, LL28 5TL, should bring you direct to our gate on most satnav systems.

Visitors coming from the A55 Chester to Holyhead expressway should take the exit for the A470 (**Junction 19**), signposted Betws-y-Coed. Take the A470 through the village of Glan Conwy, past Nev's Garage, set back from the road on your left. Take the next *right* turn, signposted Graig and Aberconwy Nursery, on to a minor road and turn *right* again at the top of the hill. The nursery is about 600 metres on your right.

Visitors coming from the south through Betws-y-Coed and Llanrwst should take the A470 towards Llandudno and Colwyn Bay. After you see the signs for Bodnant Gardens, take the third turn on the left (signposted Graig and Aberconwy Nursery). Follow the minor road to the top of the hill and turn right. Please be warned that the road to the nursery is a single track road with sharp bends and occasional passing places, and please drive carefully.

OPENING TIMES 2024:
12th March 2024 to 26th September 2024
Tuesday – Saturday: 10am-4pm

ABERCONWY NURSERY
WILL BE ATTENDING THESE SHOWS IN
SPRING AND SUMMER 2024

Sat, Feb 17th AGS Pershore Show,
Pershore High School, PERSHORE. WR10 2BX

Sat, Feb 24th AGS South Wales Show,
Llanwern High School, NEWPORT. NP18 2YE

Sat, Mar 2nd AGS Early Spring Show,
Chelmsford City Racecourse, ESSEX. CM3 1QP
