## List of Alpine Plants

Spring 2026

**ABERCONWY NURSERY**  
**PRICE LIST: SPRING 2026**

We are pleased to provide you with a copy of our new spring price list. **This list cancels all previous lists.** We hope that you will find something of interest. We grow alpine & rock garden plants (including some dwarf shrubs, acid loving plants, and ferns) as well as various other interesting plants from time to time. We grow only plants that we like and find interesting, and tend not to be constrained by categories!

All of our plants are grown on the nursery site, sometimes in small numbers per variety. As a result the stock situation can change suddenly. Some listed items can sell out quickly and unlisted varieties often become available throughout the year. Most of our plants are offered in 6cm, 7cm or 9cm pots as appropriate for the needs of the plant. **All plants are offered ex nursery subject to their remaining available.**

Plants can be ordered in advance for collection at the nursery or at any shows we are attending. A few days notice of collection would be helpful, so that we can collect the plants together, especially if the order is large. There is no need to send payment with the order. Payment can be made on collection, at the nursery or at the shows.

**We do not supply plants by mail order.**

Please ask if you cannot find what you are looking for when you visit. We have extensive growing areas beyond the sales area, and not all of our stock is out on display to customers at any one time. **If you are looking for a number of specific plants in the list, it can save a lot of time if you send your list to us a few days before your visit, so that we can assemble the available plants from the far reaches of the nursery site for you. If you are travelling from a distance to collect specific plants, please ring to check current availability, as some items can sell out very quickly, especially at the start of the season.** We have a large, covered 'Alpine Tunnel' with net sides, in which we can grow and display a large number of alpine plants. This serves to protect the plants (and our customers) from the extremes of wind & rain to which our site is prone, without making the plants 'soft'.

A list of the shows we intend to attend in 2026 is available on our website. You can check for more complete information for the AGS shows at [www.alpinegardensociety.net/flower-show-plant-fairs](http://www.alpinegardensociety.net/flower-show-plant-fairs) or [www.srgc.net/add-show-dates.asp](http://www.srgc.net/add-show-dates.asp) for the SRGC shows.

OPENING TIMES 2026:  
10<sup>th</sup> March 2026 to 24<sup>th</sup> September 2026  
Tuesday – Saturday: 10am-4pm

**Morisia monanthos 'Fred Hemingway'**

# **ABERCONWY NURSERY PLANT LIST: SPRING 2026**

**All plants are offered ex nursery subject to their remaining available.**

**Some items can sell out very quickly.**

				x barbulatum 'Hookeri'	£4.00		

## Notes from the Potting Shed

Welcome to our Spring 2026 availability list of the interesting plants we expect to have to offer in the coming months. It has proved to be another rollercoaster year weatherwise, with an exceptionally wet and mild winter, although we have had some brief snow even down at sea level! The heat last summer presented some problems, although out here in the wild west we were a little cooler and wetter than most. In spite of all this, it always amazes me how resilient so many of the plants that we grow are to the variations in the weather. It keeps us on our toes through, responding to the changes as best we can.

I've always been very fond of daisies, the smaller the better, and this year I want to highlight some species and varieties especially good for trough work. New to us this year is **Heterotheca jonesii**, a lovely little North American yellow flowered mat forming daisy from the Rockies. We haven't grow it for long, but so far have found it to be more robust than fellow Americans, **Erigeron chrysopsidis** 'Grand Ridge' and **Erigeron** 'Canary Bird'. All three make excellent subjects for troughs, with a succession of showy yellow flowers over a long period in the summer and autumn. If you prefer white, **Erigeron scopulinus** forms a dense evergreen mat of tiny leaves with small, starry flowers in summer, good for coating the sides of a trough. The very dwarf **Anthemis cretica ssp. leucanthemoides**, is a contrasting white daisy from Europe, with silver grey foliage.

From the other side of the world in New Zealand, the genus **Celmisia** provides a range of showy white daisies often with silver or white foliage. Most are large, but there are one or two choice dwarf species suitable for troughs. The tight cushion forming **Celmisia sessiliflora** has dense silver grey foliage, with sessile white daisies held tight to the cushion. In contrast **Celmisia gracilentia** has a gently running habit with strappy foliage carrying large white daisies held above the foliage. The dwarfer form of this, **C. gracilentia** 'Alan's Dwarf' has exceptionally good foliage, silver grey with ever changing markings and makes a superb subject for troughs.

It is as well to remember that the antipodean **Celmisia**s come from areas with high rainfall and good light, so moist, well drained, open positions are needed. Like many true mountain plants, they do not like to dry out in the summer.

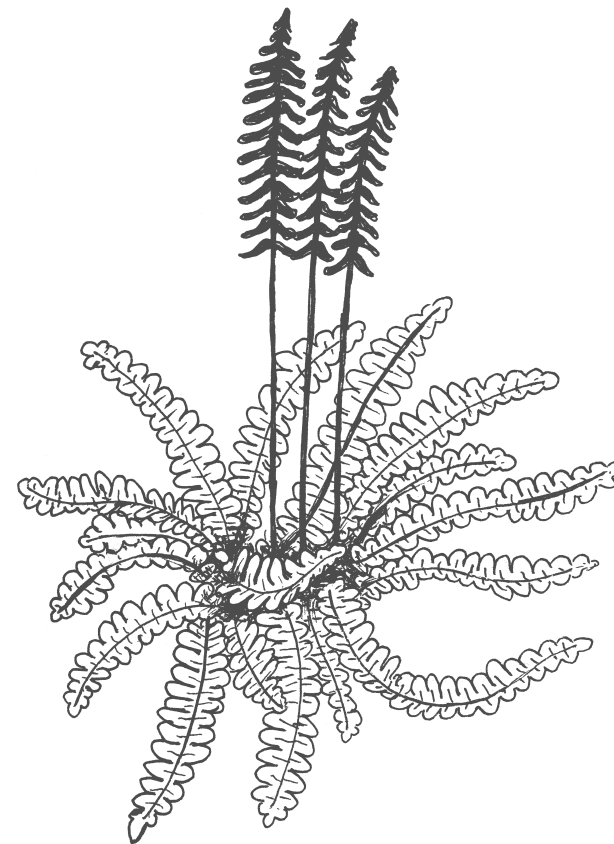

Another strappy foliated aristocrat is the very dwarf species of 'Angel's Fishing Rod' from South Africa. Most **Dierama** species are large, beautiful and imposing plants, but **Dierama pauciflorum**, at 15-20cm, is small enough for rock and trough work. We have grown this for a long time, from an original Jim Archibald collection. In the early days, it was very shy flowering but over the years it has become a much more reliable flowerer, with its elegant sprays of hanging, open, deep pink flowers peeping out above the grassy foliage in early summer.

**Hypericum reptans** 'Conwy Gold' appeared in one of our ericaceous beds some years ago, from where we do not know! We thought at first it was a spontaneous hybrid, but are now sure it is a clone of the choice Himalayan species **H. reptans**. This species was popular back in the seventies and eighties, grown by our mentors Jim Lever and George Beswick, and even rated by Will Ingwersen as the aristocrat of dwarf **Hypericum**s, one of his top ten alpine for the rock garden. Why is it so rarely seen now? In any event, 'Conwy Gold' is an outstanding, free flowering clone with red buds opening to 1cm plus waxy yellow flowers in late summer. The showy red fruits add to the autumn colour of the prostrate foliage, which is easy to cut back in the winter to promote a neat low carpet for the following year.

Finally, we have Peter Farkasch from Cheshire to thank for the showy **Lamium** 'Margaretha' (**sandrasicum** x **striatum**), which is close to **L. sandrasicum**, but rather more robust (described in The Plant Review, Dec 25, p39).

**Please order early if you would like us to bring orders to any of the shows.**

**R. 30.01.26**

**Austroblechnum penna marina var. alpinum**

### **HOW TO FIND US**

Visitors are welcome on the nursery during opening hours. The nursery is situated on a minor road just off the A470 between Llandudno Junction and Llanrwst, about 1.5 miles north of Bodnant Gardens. *The nursery cannot be seen from the main A470.* The site commands majestic views towards Snowdonia and the Carneddau.

Our postcode, LL28 5TL, should bring you direct to our gate on most satnav systems.

Visitors coming from the A55 Chester to Holyhead expressway should take the exit for the A470 (**Junction 19**), signposted Betws-y-Coed. Take the A470 through the village of Glan Conwy, past Nev's Garage, set back from the road on your left. Take the next *right* turn, signposted Graig and Aberconwy Nursery, on to a minor road and turn *right* again at the top of the hill. The nursery is about 600 metres on your right.

Visitors coming from the south through Betws-y-Coed and Llanrwst should take the A470 towards Llandudno and Colwyn Bay. After you see the signs for Bodnant Gardens, take the third turn on the left (signposted Graig and Aberconwy Nursery). Follow the minor road to the top of the hill and turn right. Please be warned that the road to the nursery is a single track road with sharp bends and occasional passing places, and please drive carefully.

---

### **OPENING TIMES 2026:**

**10<sup>th</sup> March 2026 to 24<sup>th</sup> September 2026**

Tuesday – Saturday: 10am-4pm

**ABERCONWY NURSERY**  
**WILL BE ATTENDING THESE SHOWS IN**  
**SPRING AND SUMMER 2026**

**Sat, Feb 14<sup>th</sup>** AGS South Wales Show,  
Llanwern High School, NEWPORT. NP18 2YE

**Sat, Feb 21<sup>st</sup>** AGS Pershore Show,  
Pershore High School, PERSHORE. WR10 2BX

**Sat, Feb 28<sup>th</sup>** AGS Early Spring Show,  
Chelmsford City Racecourse, ESSEX. CM3 1QP

**Sat, Mar 7<sup>th</sup>** AGS Loughborough Show,  
Humphrey Perkins School, LOUGHBOROUGH. LE12 8JU

**Sat, Mar 14<sup>th</sup>** AGS/SRGC Kendal Show,  
Kirkbie Kendal School, KENDAL. LA9 7EQ

**Sat, Mar 28<sup>th</sup>** AGS/SRGC Hexham Show,  
Hexham Auction Mart, HEXHAM. NE46 3SG

**Sat, Apr 11<sup>th</sup>** AGS North Midland Show,  
The Arkwright Centre, CHESTERFIELD. S44 5BS

**Sat, Apr 18<sup>th</sup>** SRGC Perth Show,  
North Inch Community Campus, PERTH. PH1 5BF

**Sat, Apr 25<sup>th</sup>** Ashwood Specialist Plant Fair,  
Ashwood Nurseries, KINGSWINFORD. DY6 0AE

**Sat, May 2<sup>nd</sup>** AGS East Lancashire Show,  
Whitworth Civic Hall, WHITWORTH. OL12 8DP

**Sat, May 9<sup>th</sup>** AGS East Anglia Show,  
Wymondham High School, WYMONDHAM. NR18 0QT

**Sat, May 30<sup>th</sup>** AGS East Cheshire Show,  
Bramhall Village Club, STOCKPORT. SK7 1LR

**Sat -Sun, Jun 13<sup>th</sup>-14<sup>th</sup>** Pots, Plants & Food Fair,  
Bodrhuddan Hall, RUDDLAN. LL18 5SB

**Sun, Jul 5<sup>th</sup>** 'Alpines for All', Wirral AGS Event,  
Ness Botanic Garden. CH64 4AY
